Importance: High

The following information is provided as clarification for referral of VRA eligibles in the Resumix System:

VRA eligibles will be grouped and referred together as a separate source (it is a non-competitive, excepted appointing authority). VRA's need only meet minimum qualifications to be referred. Apply regular veteran's preference procedures within the VRAs for Preference Eligibles when preparing the VRA referral list (i.e. 10-point and 5-point veterans go before non-preference eligibles).

In situations where there are large numbers of VRA eligibles, the staffing specialist can screen for desired skills within the VRA eligible grouping.

VRA eligibles should not be compared to (screened with) any other applicants using BQ or HQ criteria.

Thanks
Shirley Howard
